

Savills UK is a national business and provides property services in all 31 of the Church's districts. Generally services would be provided from the office most local to the site of the project (see office map overleaf) enabling us to bring local knowledge and to reduce travel time and costs in reaching your sites.

We have experience of working in the Isle of Man, Isles of Scilly and the Channel Islands; you will receive a consistent service regardless of the location of the project site.
