## Growing faith at home

**Homegrown** is a conference exploring how faith is grown at home. As parents and carers, how can we nurture faith with our children and young people and spur each other on to encounter Jesus in our everyday lives? This event offers opportunities to hear from families about what works for them and practical tips on putting faith at the centre of our lives.

**Take part** by watching live with us on Tuesday 8 October, 8.00-9.30pm. This is an event for those exploring ways to grow faith at home. Be part of the online conversation via social media and enjoy discussions with other parents and carers as we gather together on the day.

**Find out more** about the exciting programme at [www.methodist.org.uk/homegrown](http://www.methodist.org.uk/homegrown).

This event is delivered in collaboration with Parenting for Faith and Care for the Family's initiatives, the Kitchen Table Project and Who Let The Dads Out?
