

NEW YEAR 2016 NEWSLETTER

The end of the year has come and gone – but for many of us we are still stuck in summer mode.

So much has happened to us as a family and we have also achieved much. Working on the mission field in a different language has had its difficulties. But, as usual, God has been Gracious and merciful by providing a good school (with an English educational syllabus) and watching the girls blossom and grow vibrantly.

In 2015 God also allowed us to get some much needed help from Sierra Leone in the form of our Ansu who we have trusted the care of the house and the girls. Our girls have grown up knowing Ansu to be their big brother and he cares for them as such. He has put our minds and hearts at rest.

The past year saw us through a rather different experience of the surgeons' knife, but God took us through it all without much drama and pain and we were able to return to the mission field not too scarred. There is a testimony here!! but we will share this in another forum. We look forward to continuing good news medically.

Our work at the hospital is going on well despite the daily challenges in terms of equipment, personnel and cultural differences. We are grateful to God for His wisdom and guidance during 2015.

Please pray for the Management and workers of the hospital that God will strengthen them as we undertake changes at the hospital to enable us deliver the best possible care to our patients as we all strive to lift up the name of the Lord.

We thank you for your prayers, phone calls and kind words. Please continue to stand with us in prayer for continuing good health, wisdom and patience as we continue to work in this very difficult circumstance.

From our family to yours we pray for abundant blessings for the NEW YEAR 2016!!!!!!!!!!!!!!
