

Consider watching news clips together and then discussing some or all of the following questions:

- What did the story make you think or feel?
- What did you notice in the clip? What stories were covered?
 - What people and groups were mentioned in the news story?
 - When and where did the stories occur?
 - Why did the event(s) take place?
- What story would you want to find out more about? Where would you go to learn more?
- What questions came to mind when you were watching this clip?
- What have you been hearing and learning about what's happening in Ukraine? What did you already know about the war or the refugee situation?
- What did you learn from the clip that you didn't know before?

And going deeper...

- How do you think the producers decided which stories made it into the news?
- How would you describe what it means to be a refugee?
- What do you think it might be like to have to leave your home quickly in the middle of a war?
- What would you say to the people in Ukraine or the people fleeing the war if you could?
- What do you think the UK and other countries should do to help?
- What can we do to encourage our friends, family and church to learn about the situation and help?
- What do you know about other refugee or conflict situations around the world? How can we help?
