

Draft Connexional Central Services Budget 2020/21

Contact Name and Details	Matt Tattersall - Director of Finance and Resources tattersallm@methodistchurch.org.uk
Status of Paper	Final
Action Required	Decision
Resolutions	<p>44/1. The Council approves the presentation of the budget by “activity”.</p> <p>44/2. The Council adopts the draft budget for 2020/21.</p> <p>44/3. The Council notes the impact of the 2020/21 budget on the subsequent two years. It recognises that presenting the budget by activity now gives greater insight into how the resources of the Connexional Team are deployed and resolves to review the allocations for 2021/22 and 2022/23 over the coming year.</p> <p>44/4. The Council recommends to the Conference the district allocations of the assessment to the Methodist Church Fund set out in the paper.</p>

Summary of Content

Subject and Aims	The paper provides the Methodist Council with a budget as approved by SRC and Finance Sub Committee.
Main Points	<ul style="list-style-type: none"> • A fundamental change in how budgets are set and resources allocated • Inflationary increases • Reserves levels • Use of funds against reserves levels • Impact of Connexional Property and Finance Strategies
Background Context and Relevant Documents	MC/20/8
Consultations	The Council provided input at its meeting 29-30 January 2020. The Finance Sub Committee scrutinised the budget at its meeting on 13 February 2020 and the SRC recommended to the Council that it approve the budget at its meeting on 26-27 February 2020.

Summary of Impact

Financial	All parts of the Connexion are affected by the use of connexional funds.

Draft Connexional Central Services Budget 2020/21

1. Background

- 1.1 In order to improve how resources are allocated the Methodist Council approved a new process [MC/20/8] for setting the budget. New resource 'activities' have been identified and costed to allow the Council to consider the allocation of resources at a more strategic level. Once these budget allocations have been approved detailed budgets will be agreed with each department head within the funding envelope available.
- 1.2 The Finance Sub-committee (FSC) and Strategy and Resources Committee (SRC) have reviewed this new approach and how the allocations by activity were envisaged. It is anticipated that further refinement to the activities outlined and how these have been costed will be required over the coming year.

2. Understanding the new resource allocation process

- 2.1 Rather than setting the budget based on the old approach of allocating resources to individual departments, resources have been allocated to the 'things that we do', otherwise referred to as "activities". These activities have been developed in discussion with the senior management team and are likely to evolve further as familiarity with them increases.
- 2.2 The activities and the general area they cover can be seen in table 1.

Table 1: Resource Activities

Activity	Areas covered
Building communities	Ecumenical, Interfaith, Joint Public Issues Team, Forces Board, Communications
Children, Youth and Families	Children, youth, families, education, 3Generate
Evangelism and Growth	Evangelism and Growth, Venture FX
Global relations	World Church, World Meth Council; Mission Partners
Global relations – grants	World Mission Fund grants
Grants	Ministerial benefit grants, other domestic grants (these will move to Evangelism and Growth), ministers on recuperation
Heritage	Modern art collection, heritage, archives
Learning network	Learning network
The Conference, Council and Governance	The Conference, Presidency, Secretary of the Conference, Council, Faith and Order, District Chairs, Law and Polity, Legal
Ministries	Initial ministerial training, ministerial development, ministerial oversight, Diaconal Order
Property	Property team, Connexional manses, property projects, property grants
Safeguarding	Safeguarding
Overheads	Connexional Secretary, Finance & Resources, IT, HR, Engagement, Equality Diversity and Inclusion
Other - pensions	Pension reserve fund

- 2.3 Having established the activities, the costs have been allocated based on the current cost centres that fit with each activity.

- 2.4 Some of the Connexional Team costs are met by 'direct funding' eg the Payroll Bureau is funded by the users of the bureau. This income has been 'netted off' to leave the budget with the net cost that needs to be funded from the assessment and/or donations, legacies and investment income.
- 2.5 Having established the net cost of each activity, the overheads have then been allocated to each activity in proportion to their cost ie an activity costing £1m receives twice the overhead of an activity costing £0.5m. This approach is overly simplistic and will be developed in future iterations of the costings. For example, the costs of the Human Resources team could be allocated based on headcount.
- 2.6 It had been a stated ambition to allocate the activities to each area of the Council's objectives. However, the activities need to remain relatively static over time whereas the Council objectives will change more regularly. Consequently, the allocation of activities to objectives has not been progressed.

3. Income

- 3.1 The income over the three-year period 2020/21 to 2022/23 is broadly flat. The following are of particular note:
- The District Assessment, representing approximately a third of income, increases by 1% per annum in 2020/21 and 2021/22 as per the decision of the 2019 Conference. It is assumed that it will increase by a further 1% in 2022/23 subject to the approval of the Conference, however, the ambition to reduce the reliance on District Assessment is discussed in section 12 below.
 - Legacy income to the Methodist Church Fund (MCF) has been budgeted at £0.7m per annum which is in line with legacies received in 2018/19. Clearly, this amount is subject to significant variation, but any excess giving would be allocated to Reaffirming *Our Calling*. It should be noted that legacies will be considerably above budget in 2019/20 due to the receipt of a legacy worth approximately £1.9m, all of which is to be allocated to Reaffirming *Our Calling*.
 - Investment income is also variable based on market conditions. The budget assumes returns based on the actual level of return in 2018/19 adjusted to reflect the declining balance of investments held as reserves are expended. No growth in return is assumed, not least given the uncertainty about the timing of economic recovery and the uncertain impact from the UK's new approach to international trade.
- 3.2 Income from the 'revenue-generating centres' as outlined in the 2017 Budget Report to the 2017 Conference will continue at the current rate (£1.4m per annum). However, it should be noted that additional revenue is expected to be generated by year three of this budget cycle from the property developments in Leeds and Camden (see section 10).
- 3.3 Given the many pressures on income, it will remain vital to review the position in year and adjust plans for future periods where income targets are not realised.

4. Expenditure

- 4.1 The underlying assumption for expenditure is that all costs will be charged to restricted and designated funds where this is possible, ahead of using the MCF. However, in parallel, restricted funds will be reviewed to ensure they are used to their maximum effect within their current terms. For example, work is being undertaken to try and broaden the terms of the Special Extension Fund which exists to fund new church buildings, as opposed to refurbishing or maintaining existing

buildings. However, using the fund in line with the original restrictions could be very useful in supporting the New Places for New People strand of the Evangelism and Growth strategy.

- 4.2 To support the more effective use of our restricted funds the Methodist Council has agreed to a proposal to request expenditure intentions from the trustees of all the funds. This request will remind trustees of their responsibilities and place a presumption on trustees that their funds are for spending not saving.
- 4.3 Pay costs are assumed to increase by 2.5% per annum (stipends 2.7% per annum). Pension costs have decreased with the change from the Pension and Assurance Scheme for Lay Employees of the Methodist Church (PASLEMC) to the Royal London defined contribution scheme. However, the contracts for Life cover and Personal Health Injury cover which sit outside the Royal London arrangements offset much of this reduction. Provision will also need to be made through the next triennial pension valuation for the costs of running the closed PASLEMC scheme.
- 4.4 The apparent increase in staff costs from the 2018/19 actuals to the 2019/20 budget reflects the significant vacancy levels. Much of the underspend was covered by additional non staff expenditure in 2018/19. It is not appropriate to budget for an underspend going forward as this implies the team is planning not to fulfil the objectives set for it. Nevertheless, it would be reasonable to assume that pay may underspend over this budget period and that non-staff costs may increase accordingly.
- 4.5 It is assumed that apart from the agreed budget increases to salaries and stipends, the intention is not to budget speculatively for inflation within discretionary expenditure, given the difficulty of predicting it and the length of time between preparing the budget and its implementation. Nevertheless, the impact of this approach is to require budget holders to mitigate inflation through offsetting savings.
- 4.6 The Methodist Council has agreed a three year pilot project (total cost £240k) with Place for Hope. This charity has grown out of the Church of Scotland and is now a leading player in offering conflict resolution in faith communities. This work is a critical element of the review of our Complaint and Discipline processes. NB Depending on how the grant is awarded will impact on how the grant is accounted for (ie potentially all in 2019/20). This will be managed through amending the MCF deficit across the three year period to reflect the phasing as necessary.
- 4.7 The Connexional Allowances Committee has agreed that it will use the Fund for the Support of Presbyters and Deacons (FSPD) to fund the initial grants given to student ministers as they enter circuit ministry, thereby reducing the pressure on MCF. The committee has indicated a willingness to consider other ways in which its funds can be used within their purposes whilst also reducing the pressure on the MCF.
- 4.8 The review of ministers unable to work due to sickness has not concluded so any financial consequences are not yet reflected in the draft budget.

5. Net income/expenditure

- 5.1 The current forecast for 2019/20 includes two notable positive variances against the budget position. Firstly, expenditure from the World Mission Fund has been below plan and income above plan (due to additional contributions from the William Leech Foundation). Secondly, a legacy of £1.9m has been received. As a consequence, the actual closing fund balances for the World Mission Fund (WMF) and the MCF at the end of this year will be significantly higher than budgeted. The current plan is to reduce the WMF balance over the coming five years and the legacy is to be used to fund the early stages of implementing the Evangelism and Growth strategy. Consequently, the fund

balances at the end of 2019/20 will be higher than currently budgeted. To address this, the budgeted deficits in this next three year budget cycle will be larger, such that the closing fund balances at the end of the three years are in line with where they were originally forecast to be.

The budgets by “activity” can be seen in table 2.

6. Connexional grants budget

- 6.1 Target reserves levels for the World Mission Fund (WMF), Epworth Fund, Mission in Britain Fund (MiBF), the Connexional Priority Fund (CPF) and the Fund for Property (FFP) are in place as seen in table 4.

Table 4: Selected grant making funds and reserves

FUND	Total fund balance at 31/8/19	Balance excluding property	Reserve policy
World Mission Fund	£27m	£19m	£3.5m
Connexional Priority Fund	£9m	£9m	£5m
Mission in Britain	£4m	£2m	£1m
Epworth Fund	£7m	£7m	£5m
Fund for Property	£1m	£1m	£1m

- 6.2 The budgets for Connexional Grants from each will continue to reflect the desired drawdown over the next few years. The fund balance information shows the value excluding properties held within the fund, since these are held over and above the agreed reserves levels.
- 6.3 Grant giving is currently subject to significant changes. The SRC previously agreed that “It advocates an explicit allocation of all UK money towards the support of *Our Calling*, an agreement to the general principle of moving grant-giving towards Districts and offers a redesign of grant processes that move towards targeted funding rather than open applications.” In the context of the activity based budget allocations in this paper, the MiBF grants have been moved from ‘Grants’ to ‘Evangelism and Growth’, in the light of the Church’s prioritisation of this work.
- 6.4 As noted in 5.1, the World Mission Fund balance is above budget and is still forecast to be approximately £2m above reserve level. Discussions with the Global Relationships Committee are underway to agree a trajectory for any additional spend down to reserve level.

7. Use of Connexional Priority Fund (CPF)

- 7.1 45% of the income to the CPF remains allocated to the Pension Reserve Fund and any change to this will only follow the conclusion of the next triennial evaluation and would require a resolution of the Conference.
- 7.2 An allocation to ministerial training of c£1m has been made in previous years but can be reduced in light of current expenditure forecasts.
- 7.3 £600k has been designated for use by the Property Development Committee (£250k and £350k) over the next two years.
- 7.4 Other costs covered by the CPF are the remaining costs of Venture FX (£70k per year for two years) and the costs of the Methodist Intern programme.
- 7.5 The balance of the CPF above reserve level will be allocated to reaffirming *Our Calling* and work in the area of Evangelism and Growth in line with the Conference resolution 21/3 in the 2019 budget paper.

8. Mission in Britain Fund

- 8.1 After allowing for known commitments, it is proposed to allocate the balance above the reserve level to contribute to reaffirming *Our Calling* and work in the area of Evangelism and Growth.

9. The Epworth Fund

- 9.1 The 2013 Conference resolved (24/6) to fund the cost (£100k plus annual inflation) of the One Programme Participants from the Epworth Fund for a period of five years, commencing 2013/14. Subsequent budgets have included these costs for a further 5 years to 2022/23.
- 9.2 The 2019 Conference resolved (21/4) to use the fund to meet the costs of the Vocations strategy.
- 9.3 It is proposed to use the remaining free reserve balance on the fund to contribute to reaffirming *Our Calling* and work in the area of Evangelism and Growth.

10. Connexional Property Strategy and Connexional Financial Strategy

- 10.1 The financial modelling in relation to the rebuild of Methodist Church House is being done outside of the budget setting process. The assumption for the purposes of this paper is that the project will be self-financing in the long term – however, a separate paper on the agenda deals with this issue.
- 10.2 The financial modelling of the other developments under the control of the Property Development Committee also remain outside the budget setting process at this time.
- 10.3 The connexional budget already benefits significantly (£1.4m per annum) from contributions from the ‘revenue generating centres’ (The Wesley Hotel; The Guy Chester Centre). Without this contribution the District Assessment would be 10% higher or the work undertaken for the Connexion would be significantly reduced.
- 10.4 One of the six aims of the Connexional Financial Strategy is to reduce the Assessment to enable Circuits and Districts to focus on local priorities. This aim will take time to deliver and the current modelling shows that there will be no benefit to the MCF over the three year horizon of this budget from the major property projects.

11. Evangelism and Growth Strategy

- 11.1 The costs and funding for the Evangelism and Growth strategy (SRC19-52) have been included in this budget proposal as agreed by the SRC in February 2020. Following the SRC approval there has been some re-phasing of costs between years to reflect slightly lower costs in the earlier years. There has also been some movement in costs between the different programmes of work. The overall costs across the five years have increased by £136k due to converting one existing part time post to full time. The tables below set out in additional detail the costs and funding source that is included within the overall budget proposition.

NB Figures in grey are beyond the 3 year horizon of the budget paper.

11.2 Table 6 below shows the latest position in respect of the funding of the strategy. The “additional giving” from 2021/22 remains a conservative assessment of what could be raised though obviously assumes no detrimental impact on other areas of giving included in the overall budget.

12 Assessment

12.1 As noted in paragraph 3.1, the District Assessment is planned to increase by 1% per annum over the three year budget period. (Given cost inflation in excess of 2%, this represents a real terms cut to the connexional budget.) This amount is then apportioned among the Districts using stationing and staffing numbers (with presbyters/deacons as equivalent to 1.5 times that of a lay worker), with the

annual change per District being restricted to a maximum increase of 5% and a maximum decrease of 2%. These figures were agreed at the District Treasurers Forum in November 2019.

12.2 Given a decline in membership averaging approximately 3% per annum, the assessment per member continues to increase. Whilst reaffirming *Our Calling* seeks to address this fundamental issue facing the church, the various strategies mentioned in this paper are unlikely to benefit the financial position of the church significantly in the short term.

13. Conclusion

13.1 This draft budget is presented by “activity” to give the Methodist Council greater insight into how resources are allocated across the Connexional Team. It demonstrates how the Team continues to focus support in Reaffirming *Our Calling*. It also gives an opportunity to reflect in the coming year how resources are reallocated in 2021/22 and 2022/23 in the light of the proposed budget for 2020/21. However, the challenge remains as last year – how are the growing demands on the Team met as future reductions in income are forecast.

***RESOLUTIONS

- 44/1. The Council approves the presentation of the budget by “activity”.
- 44/2. The Council recommends to the Conference the adoption of the draft budget for 2020/21 as presented.
- 44/3. The Council notes the impact of the 2020/21 budget on the subsequent two years. It recognises that presenting the budget by activity now gives greater insight into how the resources of the Connexional Team are deployed and resolves to review the allocations for 2021/22 and 2022/23 over the coming year.
- 44/4. The Council recommends to the Conference the district allocations of the assessment to the Methodist Church Fund set out in the paper.
