

# METHODIST PIONEERING PATHWAYS (MPP) APPLICATION FORM

We are really pleased that you want to make an application to join the Methodist Pioneering Pathways. Before you begin please make sure you have done the following:

- You have spent some time reflecting on your call to pioneering and planting using the journal found at [www.methodist.org.uk/mpp](http://www.methodist.org.uk/mpp)
- You are familiar with the list of the pioneer characteristics (see section 7).
- You have spoken with someone in leadership in your circuit, such as your minister, superintendent or circuit steward.
- You have had a conversation with the Learning Network Methodist Pioneering Pathways Point Person in your region and they know you are going to apply.
- You have asked your superintendent, circuit steward or district chair to write a few words in support of your application (see section 4).
- You have asked a trusted person to be your referee (see section 5).

Guidance for your application:

- We understand that making an application can be daunting for some people and it may be the first time you have done anything like this. If you need help please ask someone who has been a part of the process so far. You will not be the first or the last to do so.
- It may be that you find writing or form filling difficult. If this is the case, please contact your Learning Network Point Person and we can arrange someone to help you to do this.
- When you make the application please hold the pioneer characteristics, found at the end of this document, in your mind.
- Please send your completed form to your Learning Network Point Person who will then complete the relevant administration.

This section should normally be completed by the Superintendent Minister or by the District Chair if the work is district-based.

## Section 7: Pioneer characteristics

The following characteristics are what the Methodist Church feels each pioneer should have already or be able to develop with the appropriate support.

### **A self-starter**

In a variety of settings, be it church, community, artistic or business, a pioneer is motivated to initiate a new project from very little or nothing to begin with.

### **A visionary**

A gift to imagine what new Christian community might be for new people and the ability to inspire others to work towards its creation.

### **A team-builder**

An effective pioneer builds teams of people around a vision to enable it to become reality. By enabling others to discern their gifts, a pioneer gives a project a sustainable future beyond their unique gifts.

### **Connected to others**

A passion of pioneers is to have creative connections to their community, to God and to individuals. Being connected will always be a significant place of inspiration and energy. Forming friendships with those beyond the established church comes very easily.

### **A call to the edge**

Though committed to the established Church, pioneers often find themselves called to and happiest at the edge. The borderland between church and community is a creative space for new ideas to emerge.

### **A natural evangelist**

At ease speaking about their faith sensitively in every situation, a pioneer is always open to sharing the gospel in relevant ways.

### **Committed to diversity**

Being called to the edge, a pioneer notices those who are missing or excluded from Christian communities. A pioneer will plant new Christian communities that seek diversity and inclusion of all.

### **Risk taking and mistake making**

Though not seeking to fail, a pioneer has a willingness to risk failure in the pursuit of finding out where God is leading. They see dealing with failure as an essential part of development and progress.

### **Responsive to changing contexts**

A pioneer is able to pivot quickly to changes around them and make them fruitful opportunities for faith to be shared or moments of growth for the new community.

### **Desire for faith community**

Essential to pioneers is the desire to form new Christian communities where people can become followers of Jesus for the first time.
