

Let's Get Talking!

Use some of the following points with your group to encourage interactive learning and response.

Follow-up discussion on Phakamisa and story-telling garden – videos and PowerPoint:

1. What did you find most interesting/fun about the service today?
2. How does what Phakamisa and the story-telling garden do reflect what Jesus says about mission?
3. What do you find most exciting about being part of Jesus' huge, worldwide mission team?
4. How do you feel knowing everything you do with JMA this year is going to help projects like the story-telling garden and Phakamisa?

Follow-up discussion on Body Parts Activity Worksheet and Body Parts Scripture Card:

Which do you think you use more:

- your hands or your eyes?
- your ears or your feet?

Do you think you could do as good a job as usual if you:

- tried to walk on your hands?
- tried to draw with your feet?

Think of up to three things you enjoy doing often (this could include eating a meal, playing a game, watching a film, etc):

- How many different body parts do you use to do this?
- What would it be like trying to do it without one or more of the body parts you have thought of?

Conclude by tying this with how every member of the church brings their own unique personality, skills and talents to the group – and how valuable this diversity is to your church and to mission!
