

Postgraduate Study in Christian Spirituality

The search for spirituality is one of the most enduring aspects of human cultures.

'Spirituality' is an expression of the way we search for meaning and seek to live out our fundamental beliefs and values in everyday life. In Christian terms, spirituality is concerned with the lived experience of the Christian faith and the human relationship with God.

This programme offers the opportunity to study this dynamic field in depth from theological, historical, pastoral and other contemporary points of view.

Validated by
